Internship Dates

Your Outreachy internship starts on Dec. 1, 2020 and ends on March 2, 2021. [Internships can be extended](#) by up to five weeks if your mentor feels you are not putting in a full-time (40 hours a week effort), or you need to take more than a week off from your internship. Please have your mentor [discuss any extensions](#) or changes to your start date with the Outreachy organizers.

Internship Feedback

The Outreachy organizers want to ensure that all interns get the support they need from their mentors. You will be asked to provide mentor feedback on specific dates, which coincide with when your mentor is giving feedback on your internship efforts.

The feedback form also collects information about how you view your own progress in the internship. This is important to provide, especially if your mentor has previously asked for an extension for your internship. The feedback form also offers a way for interns to request additional help or support.

The feedback is private and completely optional. Your feedback about your mentors will only be seen by the Outreachy organizers. We will discuss the feedback with you before contacting your mentors about how to improve their mentorship.

Feedback and payment status:

- Your initial feedback was submitted.
- Your mentor most recently submitted initial feedback on Dec. 11, 2020, 3:52 p.m.
- Neither you nor your mentor have submitted midpoint feedback.
- Neither you nor your mentor have submitted final feedback.

Please note that your payment may be delayed for several reasons:

- You did not supply a W8-BEN or W-9 form promptly.
- Your payment account was in another person's name, and you needed to complete a third-party payment form. That form must be approved by the Software Freedom Conservancy's Executive Director, Karen Sandler. Payment cannot be processed until the third party payment form is approved. Please notify SFC accounting ASAP if you have a different name on your account than the legal name you signed your contract with.
- You have an extension for your internship. If your internship was extended at the midpoint, your midpoint payment will be delayed by that amount of time. This will also move your final payment by the same amount of time (or more, if your internship is extended again).

If you do not think your payment has been delayed for any of the reasons above, please wait at least ten days past the payment deadline before contacting the SFC accounting.
